

FABRIC UNWINDER

with automatic end to end jointing and automatic permutation new reel/empty shaft

FABRIC WINDING
OR UNWINDING
ACCUMULATION
HEATING OR
COOLING ROLLERS
NON-STOP FABRIC
TRANSFER LINES
MADE IN FRANCE

- Improves the manufacturing line productivity through non-stop reel change.
- Minimizes fabric waste thanks to consistent end to end jointing
- Optimizes fabric winding station ergonomics and safety.

Automatic end to end jointing system using double sided tape

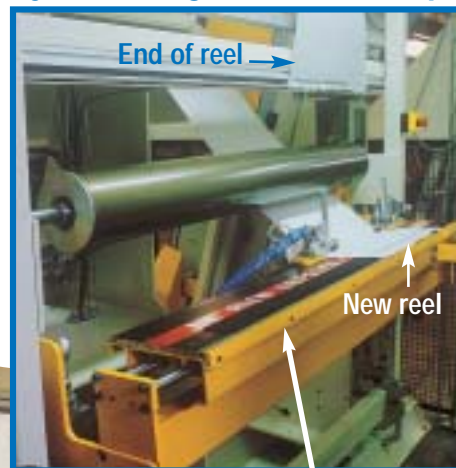

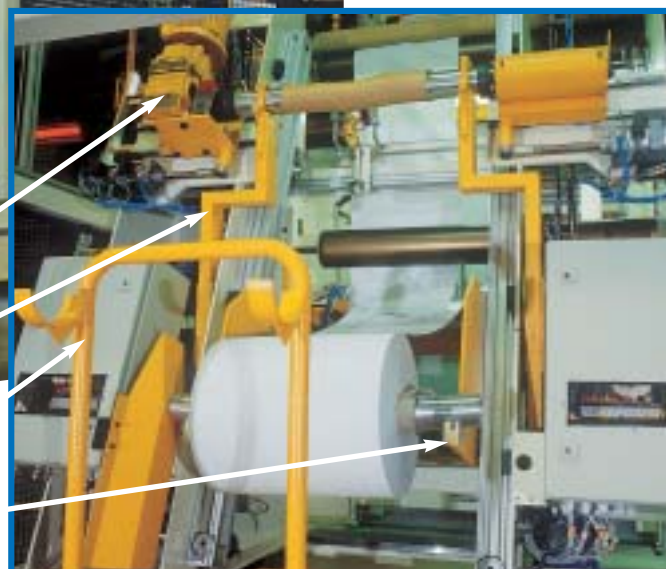

Table ready for jointing

Table in jointing position

- 1 Motorized unwinder
- 2 Pneumatic shaft evacuation (end of reel)
- 3 Handling trolley
- 4 New reel loading
